

## Five Reasons to Choose FloodStop:

- 1) FloodStop is the only product of its kind that uses solid brass, motorized ball valves for every appliance in your home.
- 2) Units are powered by AC, batteries, or both.
- 3) Water Heater units are full port valves, with zero pressure restriction and UPC approval.
- 4) Automatic monthly cycling of the valve(s).
- 5) Named one of Readers Digest top 100 new products of 2004.
